Subject: Receipt of Special Use Permit Application East Mountain Access

Dave,

I have received your Special Use Permit Application requesting authorization for continued use and eventual reclamation of the off-lease temporary access road from the end of Forest Development Road 244 to Section 2 (SITLA) constructed during August 2007 for the emergency rescue efforts.

We have reviewed the proposed bond amount shown on pg 12 and Attachment 10 of the Addendum to the Reclamation Plan and determined \$38K is reasonable.

After further review it may be determined that additional bonding may be required. I would not anticipate the amount to exceed \$50K. I anticipate processing the Special Use Permit application and issuing a Special Use permit in the next 3 to 4 weeks.

Thank you for your sincere efforts to complete the East Mountain/Crandall Canyon reclamation in a timely manor
